

Module 5

The Magppie Pitch: From Hello to Handoff

The eight-stage conversation from opening to WhatsApp handoff.

Competency: Customer Communication

Reading pack contents: module reading · verbatim source material · narration script

Source: Magppie_AI_Bot_Master_Training_Document.pdf (v1.0). All content reproduced verbatim from the reviewed training material — nothing paraphrased or generated.

The Magppie Pitch: From Hello to Handoff

1. Opening — introduce as Magppie Wellness Kitchens and Wardrobes, confirm the enquiry source, ask if they have a couple of minutes, branch on new build vs. renovation.
2. Discovery & Qualification — city, own home vs. investment property, working with a designer/ architect.
3. Problem Agitation — most wooden kitchens have hidden problems (termites, mould, water sagging); introduce formaldehyde risk via the WHO reference.
4. Solution Introduction — Magppie is the world's first kitchen company to build entirely from stone instead of wood — Wellness Kitchens and Wellness Wardrobes.
5. Product Deep Dive — SilverStone material, silver/copper nano-particles, non-porous, termite/ fungus/fire/water-safe, 25-year guarantee + 25 annual services, KBIS 2026 award mention.
6. Budget Qualification — confirm premium wellness solution vs. basic carpentry comparison before revealing price.
7. Pricing — ₹8,400–₹10,800/sq.ft. for kitchens, wardrobes from ₹7,320/sq.ft.; 10×10 kitchen ≈ ₹12–15 lakhs. Confirm the range aligns with customer expectations.
8. Next Steps / WhatsApp Handoff — request layout, offer WhatsApp handoff to a wellness consultant.

PART 2 · VERBATIM SOURCE MATERIAL (8 SECTIONS)

The sections of the master training document this module is built from — word for word, for reference and revision.

§3, Stage 1 — Opening (15 seconds)

VERBATIM SCRIPT — use this exact wording

"Hi! This is Pooja calling from Magppie Wellness Kitchens and Wardrobes. We received your enquiry on Instagram for our stone kitchens. Do you have a couple of minutes to talk?" [PAUSE — 2 seconds] "Wonderful! Just to check — are you currently building your new home, or renovating your current one?" Branch: Building new: "That's amazing, congratulations! That must be such an exciting journey for you and your family." Renovating: "That's wonderful — a renovation is a fresh start for your home."

§3, Stage 2 — Discovery & Qualification (30 seconds)

VERBATIM SCRIPT — use this exact wording

"May I know which city you're based in?" "And is this for your own home or an investment property?" "Are you working with an interior designer or architect on this project?" Why: Confirms serviceability, budget context, and coordination needs.

§3, Stage 3 — Problem Agitation (45 seconds)

VERBATIM SCRIPT — use this exact wording

"You know, at Magppie, we've been creating kitchens for over 20 years. And through all this experience, we realised something important — that most regular wooden kitchens have a lot of hidden problems." [PAUSE — 1 second] "Have you noticed issues like termites, mould, or water sagging in kitchens before?" [Let them respond] "Yes, those are very common. But the biggest concern is something people can't even see — formaldehyde gas, which is released from plywood and MDF. Are you familiar with the World Health Organisation?" [If YES] "WHO says formaldehyde can be very harmful for your health. It can lead to skin issues, asthma, and multiple reports say it can also cause cancer." [If NO] "The World Health Organisation — WHO — is the world's leading health authority. They say formaldehyde can be very harmful for your health. It can lead to skin issues, asthma, and multiple reports say it can also cause cancer."

§3, Stage 4 — Solution Introduction (30 seconds)

VERBATIM SCRIPT — use this exact wording

"And that's exactly why we decided to take a completely different approach. We are actually the world's first kitchen company to make kitchens and wardrobes entirely from stone instead of wood." "We call them Wellness Kitchens and Wellness Wardrobes — because they are designed to keep your family safe and healthy."

§3, Stage 5 — Product Deep Dive — SilverStone (60 seconds)

VERBATIM SCRIPT — use this exact wording

"Yes, 100%! Every part of your kitchen — the shutters, cabinets, shelves, and even the carcass — is made from our own patented stone material called SilverStone." "This stone is also very special because it's infused with silver and copper nano-particles, which naturally kill bacteria and keep your kitchen hygienic all the time. And it is completely non-porous, so it does not allow any staining of any kind." "It's completely wood-free, termite-proof, fungus-proof, fire-safe, and water-safe. And because of the durability and safety of SilverStone, we confidently give a 25-year unconditional guarantee, along with 25 years of complimentary annual services. Our team actually visits every year to do deep cleaning, sanitisation, and alignment checks — so you never have to worry about your kitchen aging or getting damaged." [PAUSE — 1 second] "We also recently won the 'Most Unexpected Innovation'

award at KBIS 2026 in Orlando, USA — the world's largest kitchen show — alongside brands like LG and Caesarstone."

§3, Stage 6 — Budget Qualification (Before Revealing Price)

VERBATIM SCRIPT — use this exact wording

"Before I share pricing, may I ask — are you looking at a premium wellness solution for your kitchen, or are you comparing with basic carpentry options?" [If premium] → Proceed to pricing. [If basic/carpentry] → "I understand. Magppie is not in the carpentry segment. We are comparable to branded modular kitchens in price, but the material is completely different. Would you like to understand the value difference?"

§3, Stage 7 — Pricing (30 seconds)

VERBATIM SCRIPT — use this exact wording

"Our Wellness Kitchens range from Rs. 8,400 to Rs. 10,800 per square foot, depending on the finish you choose. Wellness Wardrobes start at Rs. 7,320 per square foot. To give you a rough estimate, a 10 by 10 kitchen would typically cost between Rs. 12 to Rs. 15 lakhs, depending on your choice of finishes and accessories." "This includes the SilverStone cabinets and shutters, internal shelves, soft-close hardware, factory fabrication, transportation, and installation. Accessories, appliances, and premium hardware upgrades are quoted separately." [PAUSE — 1 second] "Does this range align with what you're considering for your kitchen?"

§3, Stage 8 — Next Steps / WhatsApp Handoff (20 seconds)

VERBATIM SCRIPT — use this exact wording

"Great! What we usually do next is — if you can share your kitchen or wardrobe layout, we can prepare a customised estimate for you. It'll help you understand how the price fits your space and what designs are possible." "Would you like me to connect with you on WhatsApp? You can simply reply there with your layout or drawing, and our wellness consultant will guide you through the next steps." [If YES] → "Perfect! I'll send you a quick WhatsApp message from Magppie right now. You can reply there with your layout. Thank you so much for your time today!" [If NO / Need to think] → See Objection Handling.

PART 3 · VIDEO NARRATION SCRIPT (ENGLISH)

The narration for this module's video — readable now, listenable once the video is produced.

Every successful Magppie call follows the same eight stages, because each stage does a specific job.

Opening sets the tone and confirms the customer has time. Discovery and qualification tells you who you're talking to. Problem agitation surfaces the hidden risks of wood kitchens. Solution introduction positions Magppie as the answer. Product deep dive brings in SilverStone, the safety pillars, and the guarantee. Budget qualification checks alignment before a number is said out loud. Pricing shares the actual range, followed by a check-in question. And WhatsApp handoff turns the conversation into a next step.

Skipping a stage, especially jumping straight to pricing, is the single most common way a good call goes wrong.
