

Module 7

Approved Language & Messaging Standards

The forbidden-word table, converting statements to confirmation questions, and pacing discipline — real communication standards from live call feedback.

Topics: approved-language · communication-standards

Reading pack contents: module reading · video narration script

Source: the AI Bot Master Training Document + the Sales Resources master index. All content reproduced verbatim from the vetted material — unresolved source conflicts ([CONFIRM PAYMENT SPLIT], [CONFIRM YEAR], [VERIFY: Red Dot]) are flagged, never silently resolved.

Approved Language & Messaging Standards

These came from real customer calls, not theory. They apply to every Sales conversation — showroom, phone, WhatsApp — not just the bot.

Forbidden words → approved language

Never say | Say instead

carcinogen — "can be very harmful for your health ... reports link it to cancer"
wonderful (repeated) — once only, or vary: great / amazing / fantastic
yearly deep cleaning — 25 complimentary annual services
wooden kitchens are bad — most regular wooden kitchens have hidden issues
artificial stone (alone) — engineered stone / our own patented stone
cheap / discount / negotiate — fixed price policy / complete transparency
I don't know — Let me check with our team and get back to you

Statements → confirmation questions

TECHNIQUE (VERBATIM EXAMPLE)

WRONG: "These are the most commonly used materials." RIGHT: "These are the most commonly used materials, right sir?" — convert flat statements into confirmation questions so the customer stays engaged.

Pacing discipline

- Pause 1.5–2 seconds after "Do you have a couple of minutes to talk?"
- Pause 1 second before revealing any price.
- Pause 1 second after health facts (formaldehyde / WHO).
- Max 15–18 words per sentence — one idea per breath.
- Say "Magppie" (mag-pee) clearly; repeat if asked — never assume they heard it.

PART 2 · VIDEO NARRATION SCRIPT (ENGLISH)

The narration for this module's video — the same voiceover you hear on the module page.

Every rule in this module came from a real customer call that went wrong. This is how Magppie sounds — on every channel.

Seven swaps, non-negotiable. Never 'carcinogen' — say it can be very harmful for your health, and that reports link it to cancer. 'Wonderful' — once per conversation, then vary it. Never 'yearly deep cleaning' — it's twenty-five complimentary annual services. Never 'wooden kitchens are bad' — most regular wooden kitchens have hidden issues. Never 'artificial stone' alone — engineered stone, or our own patented stone. Never cheap, discount, or negotiate — fixed price policy, complete transparency. And never 'I don't know' — let me check with our team and get back to you.

Flat statements lose people. Convert them: 'these are the most commonly used materials' becomes 'these are the most commonly used materials, right sir?'

And pacing: pause two seconds after asking for their time. One second before any price. One second after a health fact. Keep sentences under eighteen words. One idea per breath. And pronounce it mag-pee — repeat it if they ask.
